# MODERN 0 GAUGE REMOTE CONTROL

## Part 1:

### Lionel® TMCC® & LEGACY™ Basics

A McComas/Stachler Production

TM is proud to announce the first in a series of instructional videos covering the new electronic control systems that have raised the bar for operating model trains. In Part 1, we show how easy Lionel's TMCC and LEGACY are to install and use and how they take you to an entirely new dimension of fun and realism.

Model train expert Bob Phillips is your guide. Bob has been collecting, operating, and selling Lionel trains for over 40 years. He is an authorized Lionel repairman and has lectured extensively on Lionel TMCC.

Bob Phillips

## HERE'S A SAMPLING OF THE DVD's CONTENT:

- Bob compares the original TMCC Cab-1® system with the new TMCC LEGACY Cab-2® system – including companion locomotives.
- How to use the new keypad.
- How to use new features like the improved whistle and speed steps.
- How to install on your layout.
- How to phase your transformers and install common ground wiring.
- Split-screen technology allows you to see both the LEGACY control keypad and the locomotive at the same time so it is clear what button you press to get the results you want.
- How to program an original TMCC Locomotive into the Cab-2 control by naming it, choosing type, control, and sound settings.
- How to program a LEGACY locomotive using the module key that comes with the locomotive; also by using the new LCS SensorTrack™.
- How to change LEGACY channels & update using a computer.
- How to lash-up locomotives.
- LEGACY's Action Recorder feature explained & demonstrated.

## Tinplate Legends in Action 5

Any tinplate train lover will find Russ McFall's mancave irresistible. His 3000-square-foot basement houses six layouts, including the oldest operating toy train layout in America.

Jim Hall's multilevel, 20X50-foot standard gauge layout features a 9-stall roundhouse and operates seven trains. Jim has an extensive collection of McCoy and other rather obscure train makers. You will be amazed at their variety and quality.

If you visit either, bring a tent. You won't want to leave. Plus John Potter compares AF's original 4694 with the repro.

# The story of toy trains – 1945-1966

For anyone who ever played with a toy train. Hear the whistle blow. Let the memories flow. We interviewed collectors from all over the country, filmed their layouts, captured their memories. Fierce loyalties ran deep – and still do. Lionel dominated but American Flyer had their loyal following. So did Marx and Kusan.

The catalog illustrations made the trains look powerful and irresistible. You stared at the color pages and dreamed. Nobody cared if the angles and proportions were stretched a bit. Reality lived up to the fantasy.

# Ford's Commemorative DVDs Celebrate Mustang's First 50 Years

**Running time: 2 1/2 hours**  
**Acquired in HD and wide screen.**  
**Item Code: MUSTANG \$19.99**

See trailer at – [tmbv.com](http://tmbv.com) – click on “Mustang”

*“An excellent portrayal of the 50-year progression of the Mustang. Early history facts are correct, with well-researched pictures and video used throughout.”*

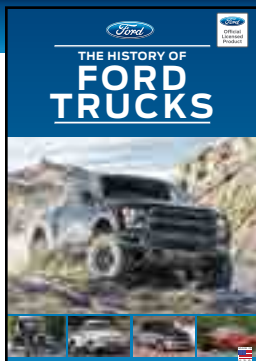

**Robert Fria – Author, *Mustang Genesis***

*“It would be terrific if all automotive history on video was as comprehensive as this one.”*

**Hemmings Motor News**  
**May 2015**

- This all-new, Ford-licensed DVD charts the amazing story of the Mustang from the early years, through the launch in 1964 – the most successful in automotive history – to how the Mustang changed through five generations (1964–2014).
- New HD, wide screen footage of many of the great Mustangs through 2014 plus preview footage of the first new Mustang for the next 50 years – the 2015 Mustang GT.
- Interviews with Gale Halderman (who drew the chosen sketch), Mustang expert Jeff Burgy, authors John Clor and Matt Stone, Henry Ford III, and others.
- Archival footage mixed with new HD video of enthusiasts talking about their love affair with this iconic sports car.

## Coming Spring 2016

The story of Ford trucks is the story of America. Trucks played a pivotal role in the shaping and expanding of America, the two world wars, the postwar boom, and still today – trucks keep America rolling.

Come along for the ride.
